WHY DO WE NEED DD4B?

Hona: Different needs in the Community
I believe in the Method, but there are still blind spots to work out

Mona: In "normal" business a lot of energy get lost because of WNV-Work
DD is a answer to do it different! But we still can't communicate it.

Olona: DD is a unification of a lot of other... spiritually, PKA... It is a good compendium
I want to ~~produce~~ ^{use} the method for WNV needs

Anthon: In DD you have participation combined with PKA & Knowledge Transfer
Social Impact with empowerment for the people to bring it into world

Angel: frustration with current Community vs. potential of DD
→ personal wounds/conflicts of community members vs. home work to work on DD
talk and not walk $\frac{1}{2}$ / AHA → it ~~now~~ needs it's own safe space
power: working collaborative way of creating teams applying why4um / cultural pieces in the karabirdt

Hona: Don't convince other start acting for yourself!

Mona: At the moment it is very open and i need a safe place to bring quality.
I want consistent parents to see this child.
I take it serious and want to earn money with it.

Anthon: We need more real Profed-Facilitation - Knowledge
DD - become

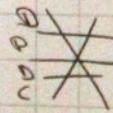

Olona: It is now and we, that can build the bridge

Hona: We shall now... class and now

SPINT

 Hierarchy → Culture - Time - PM - Communication Tool
 Bridge from C over

- Follow-up Material → Dream - Hierarchy - Gantt
